CHILD PROTECTION, VETTING & COMPLIANCE YOU CAN PROVE

From Chaos to Control: A practical playbook for child protection & compliance in sport.

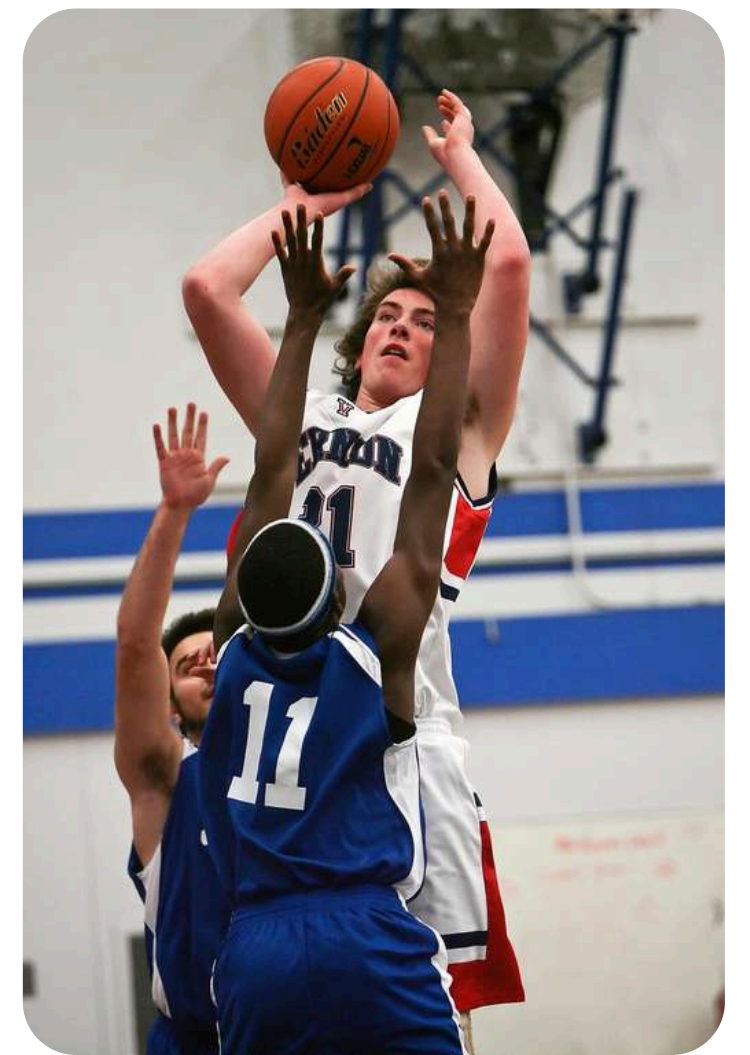

WHY COMPLIANCE CAN'T WAIT DESIGN COMPLIANCE IN—DON'T BOLT IT ON

For National Governing Bodies (NGBs) and multi-sport federations, safeguarding is more than a policy—it's survival. Parents, sponsors and regulators expect airtight systems to protect athletes and prove accountability. Yet too often compliance relies on spreadsheets, emails and crossed fingers.

For national governing organizations, the load is heavy: police checks, certifications, concussion protocols and eligibility rules for thousands of members. It's easy for staff and systems to become overwhelmed.

The result? Missed renewals, audit stress and risk to both athletes and reputation.

That's why forward-thinking governing bodies are making compliance proactive, provable and part of their sport's everyday DNA.

FROM CHAOS TO CONTROL

COMPLIANCE IN ACTION

- **Proactive:** Stop firefighting, design in compliance from day one, instead of policing after the fact.
- **Boost credibility:** Show sponsors & parents you take safeguarding seriously.
- **Cut manual admin** hours chasing expired certs, vetting and paperwork.
- **Focus on growth:** Free up staff for development and support.
- **Standardise nationally** while giving regions the flexibility they need.
- **NGB Oversight:** Gain realtime visibility across clubs and regions.
- **Be audit-ready anytime:** for a call from funders, insurers or regulators
- **Confidence for stakeholders:** Demonstrate trust and professionalism across your sport.

WHAT SPORTS LEADERS TELL US THEY NEED

- **One central system** for vetting, training and eligibility.
- **Real-time red/green lights** that stop non-compliant participation before it starts.
- **Eligibility gates at every entry point** (registration, rostering, team sheets, officiating, coaching).
- **Policy acknowledgements with e-sign & version history** so you can prove who signed what and when.
- **Incident, concussion, injury & discipline management** with Return-to-Play safeguards.
- **Automated reminders and renewals** so nothing slips through the cracks.
- **Self-service portals** for coaches and volunteers to upload certifications, check status and renew without admin chasing.
- **Evidence-ready audit trails** for regulators, funders and insurers.
- **Global standards coverage:** GDPR (EU), DBS (UK), Rowan's Law (Canada), SafeSport (US) and equivalents worldwide.

THE SPORTLOMO ANSWER

COMPLIANCE BUILT IN

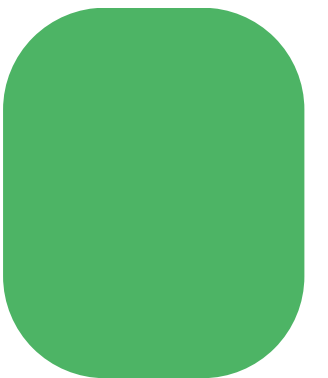

Unlike bolt-on tools SportLoMo is an all-in-one sports management platform used by NGBs, associations, regions, leagues and clubs. Governance and player welfare aren't bolt-ons—they're embedded into the same system you use for membership, events, competitions and managing officials.

Everything in One Place – One Platform

- Role-based access (permissions) ensures only safeguarding admins see sensitive data.
- Police check & vetting records are stored with automated expiry alerts.
- Email reminders that escalate until requirements are met.
- Eligibility gates block registrations, team rosters or officiating until clearance is confirmed.

Tools That Go Beyond the Basics

- A full suite of governance controls.
- Concussion management, incident logs with return-to-play rules.
- Incident, injury and discipline reporting with time-stamped audit trails.
- Central document vault with policy sign-offs and version history.
- Complete record of who viewed, edited, or changed permissions.

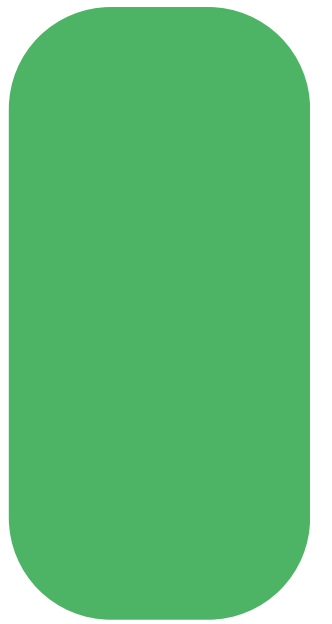

Integrated Training & Certification

- Safeguarding and coaching course registration tied directly to membership.
- Credential tracking with renewal alerts for coaches, officials and volunteers.
- Automatic updates: complete training today, appear eligible tomorrow (linked to an individual member's profile).

Data Protection You Can Prove

- Full history of user activity, including views & edits.
- GDPR-compliant with EU hosting (our primary hosting is in Dublin, backups in Germany).
- Granular permissions and comprehensive audit trails for regulators and funders.
- Export in CSV, Excel or PDF format.

QUICK FEATURE CHECKLIST

PERFECT FOR REQUESTS FOR PROPOSALS (RFP)

- Eligibility checks for coaches, refs & officials.
- Vetting/DBS/police check tracking with reminders.
- Concussion Management with Return-to-Play.
- Incident & discipline logs with shareable reports.
- Policy sign-offs with version history.
- Role-based access with full activity logs.
- Training/LMS integration with realtime eligibility updates.
- GDPR hosting and data residency options.
- Easy exports in CSV, Excel or PDF.

FAQ'S: ANSWERS FOR SPORTS ADMINS

How can we track compliance in real time?

Checks are built into membership, event and competition workflows. Non-compliant participants are automatically blocked until approved.

Can SportLoMo handle renewals for vetting and police checks?

Yes, expiry dates are monitored and reminders escalate until updated.

Do you cover concussion and injury protocols?

Absolutely. Our module logs every incident and enforces Return-to-Play before participation resumes.

Is it suitable for multi-sport organisations?

Yes, SportLoMo supports multiple sports and governance models in one platform.

How is sensitive data secured?

Role-based access, GDPR-compliant hosting and audit trails for every action.
